

The #1 thing guests will remember from your event is the entertainment! In addition to our already popular all-inclusive photo booth We now offer our NEWEST Attraction:
The Amazing Green Screen!

Similar to a newsman and a weather map... Our fully customizable software "superimposes" your image over a number of rotating and changing backgrounds that we pre-program for you! What's even better is that you see the image LIVE on the preview monitor before it takes the photo. Where will the Amazing Green Screen take you?

Each of your 4 poses will have a different background!

Guests will *INTERACT* more with each other - meaning more FUN and MEMORIES!
Choose from many pre-selected categories: Beach Scenes, Sunsets, World Landmarks etc.
Because our software randomly selects your destination, the sessions never stop!

Limited Availability! Book this option early!
